

Vocabulary

543 word entries, plus every number from 0 to 100. Nouns include their article and plural or a usage note.

Cumulative study pack for Momente Lessons 1–3: names and origin; personal profiles and work; family and languages. The core comes from the supplied coursebook, workbook and official English glossary. Module 1 reading, business and exam material and teacher-assigned professions are labelled separately. Example sentences and explanations are adapted for study; character names and isolated city names are not a memorization list.

How to study

Learn a small group, cover the German, and recall it from the English. Then use it aloud in a sentence. Tick an item only when you can recall and use it on another day.

Source key: KB = Momente coursebook, AB = Momente A1.1 workbook, © 2020 Hueber Verlag. KB/AB references use printed pages; add 2 for the local PDF page number. Glossary/transcript pages use their printed/PDF numbers directly. KB: introduction p. 10; L1 pp. 11–14; L2 pp. 15–18; L3 pp. 19–22; module pp. 23–28; linked practice pp. 155–159 and 191–192. AB: L1 pp. 6–9; L2 pp. 10–13; L3 pp. 14–17; module pp. 18–25; linked extra practice pp. 86–87, L1–3 portions only.

Study order: Core first; Context for the readings and optional module; Classroom for understanding tasks; Teacher extra for your separate professions assignment. Inflected variants are grouped with their headword. Verbs appear here as words and receive their conjugations in the verbs guide.

Vocabulary priority and conjugation priority differ: a Core word such as sammeln or planen should be understood and learned, but its entire verb paradigm is reference. In the verbs guide, main study verbs receive active practice; gehen and glauben are learned chiefly through their phrases.

Coverage: Core: 198; Context: 139; Classroom: 127; Teacher extra: 79.

Every number from 0 to 100

Master the whole range. For 21–99 except multiples of ten, say the unit + und + the tens: 24 = vierundzwanzig. Use ein-, not eins-, inside einundzwanzig. Watch sechzehn, siebzehn, sechzig, siebzig and dreißig. 100 can be hundert or einhundert. Source: KB p. 16 and p. 157; AB number practice pp. 11–12.
